ABOUT THIS GUIDE

Our aim is to establish NJA Legal as a brand that people can trust. Trust is built through consistent visual representation, tone of voice, and actions that reflect our core values, ensuring clients, partners, and followers have a unified experience.

This guide is crafted to help communicate the NJA Legal brand in a way that meets expectations effectively. Consistency is key, whether someone is encountering the brand for the first time or the hundredth.

Inside, you'll find guidelines for designing, writing, and applying the NJA Legal brand across various channels and marketing efforts.

01

NJA LEGAL LOGO

The NJA Legal logo is the most immediate representation of our personal brand, reflecting who we are and what we stand for. It is a valuable asset that must be used consistently and in its approved forms.

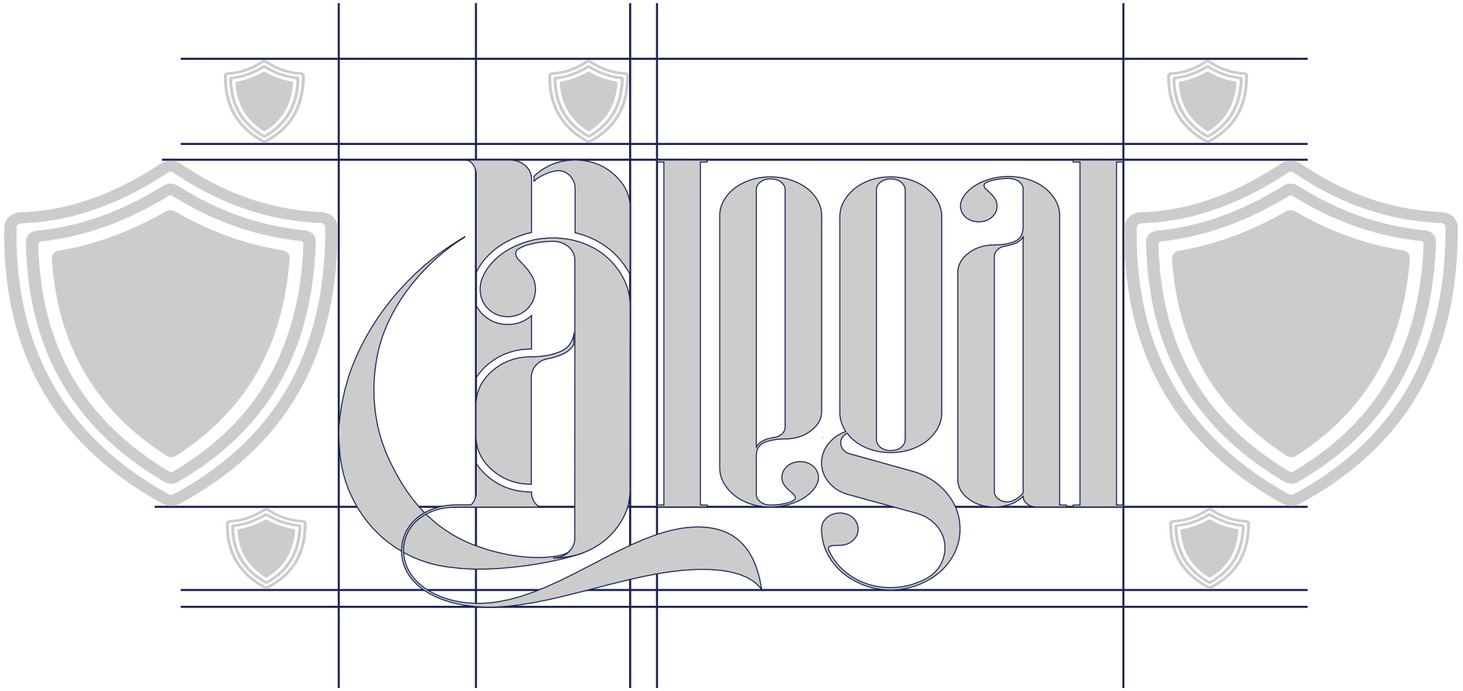

The following pages will illustrate the development of the logo and provide guidelines on its proper usage.

1.1 MARK **SHAPE**

The text-based NJA Legal logo is crafted using a grid system, constructed with geometric lines to ensure a strong visual balance and stability. This grid technique provides a consistent structural foundation, making the logo adaptable to various applications.

This version emphasizes the geometric and text-based nature of the logo while maintaining the original meaning.

1.2 MARK COLOUR

The next stage involves incorporating our brand colors: Navy blue, Gold, and Grey.

This step will help establish a consistent visual identity that aligns with our brand values and messaging.

02

LOGO USAGE

The NJA Legal brand logo is a valuable corporate asset that must be used consistently in its proper, approved forms.

Consistency in application across all touchpoints will help reinforce a unified perception of the brand.

All rights reserved NJA Legal © 2024

2.1 CLEAR **SPACE**

Whenever you use the logo, it should be surrounded by clear space to ensure its visibility and impact. No graphic elements of any kind should invade this zone.

The clear space is derived from the core parts of the mark.

All rights reserved NJA Legal © 2024

2.2 MINIMUM SIZE

To ensure the brand logo remains clear and readable, we recommend maintaining a minimum width of 2cm for print and 300 pixels for digital use.

Using sizes smaller than these measurements can result in a blurry or pixelated logo. For print, a smaller size may cause the logo to become unrecognizable and the ink to appear blurry.

Logo minimum size:
For print minimum width: 2cm
For digital minimum width: 300px

2.3 CORRECT USAGE **BASED ON BACKGROUND COLOR**

Black or White Backgrounds
Always use the primary masterbrand.
- For images, place the brandmark on a black or white area.
- For external communications, follow guidelines for primary, secondary versions.

Coloured Backgrounds
Choose a colorway that ensures maximum contrast.
Use the full white version if the background is too busy or compromises legibility.
Do not box the masterbrand in a black or white rectangle.
Refer to best practice examples for usage against different background colors.

All rights reserved NJA Legal © 2024

2.4 INCORRECT **USAGE / COLOR**

These examples demonstrate incorrect usage of the brand mark on colored backgrounds.

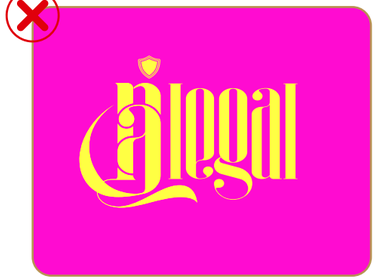

It is crucial that the brand mark stands out clearly in any application.

The brand mark colors must remain as specified in the guidelines and should not be altered.

Additionally, opacities or partial opacities should never be applied to the brand mark.

Do Not use Black on Grey Background

Do Not change the logo or background colors

Do Not use White on Light Background

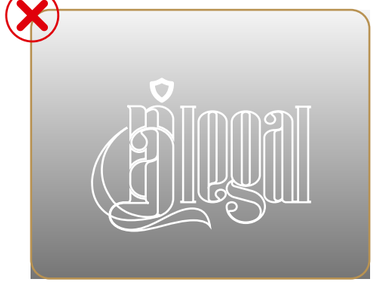

Do Not use Grey on Black Background

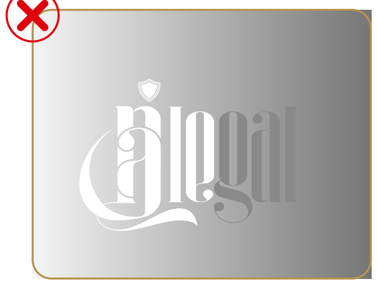

Do Not use White on white Background

Do Not use Black on Dark Background

Do Not use any strock / outline

Do Not change some elements color

Do Not use gradient

BRAND SUPPORT ELEMENTS

To support the brand's identity, offer flexibility in its application, and incorporate elements that distinguish the brand.

All rights reserved NJA Legal © 2024

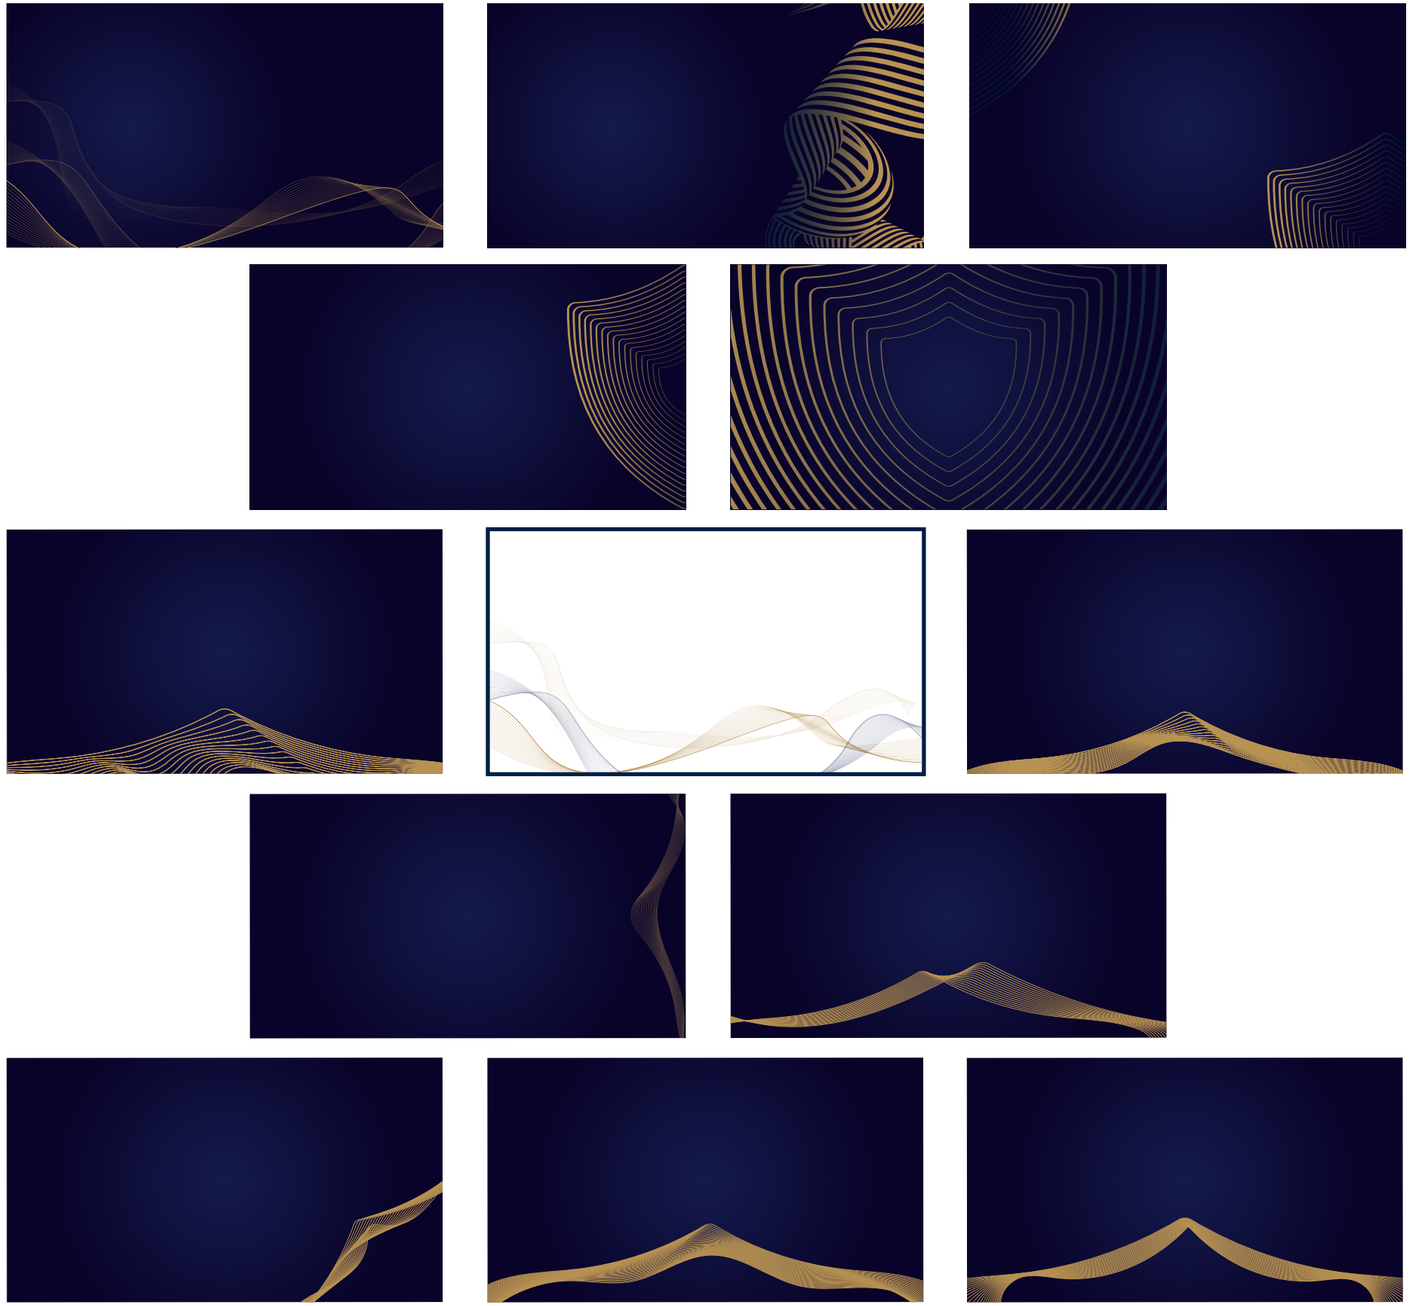

6.1 BRAND **PATTERNS**

The use of the brand's graphic elements should align with the logo to create distinction and avoid overuse.

This brand element is best suited for large areas that are unlikely to feature images, where messaging or branding is placed on a "flat color," such as white or gray.

It should always be positioned prominently in the layout, providing a clear sense of movement and progress. This graphic style is effective both from a distance and up close.

We recommend using it ONLY when imagery and text are minimal to maintain clarity and simplicity.

STATIONERY

The following pages provide a detailed overview of how the brand is applied to key stationery items.

This section highlights the consistent use of branding elements to ensure a cohesive and professional appearance across all stationery materials.
